

# BellaX

Take a sit and experience the breakthrough technology for incontinence.

- Strengthen the entire pelvic floor muscles
- improved sexual performance.
- Reduced incontinence.

NO SURGERY

NO PILLS

NO PAIN

**30** Mins  
**15,000** Kegels

## REDUCED INCOTINENCE

BellaX utilizes High-Intensity Focused Electromagnetic technology (HIFEM) to deliver thousands of supramaximal pelvic floor muscle contractions in a single session. These contractions reeducate the muscles of incontinent patients similar to the contractions you perform when doing a Kegel exercise.

BellaX is one of the easiest, most relaxing, and non-in-vasive procedures available to help reduce urinary leakage and dribbles, and free women and men from incontinence.

### ► FEMALE

60% female are affected by UI between the ages of 45 and 55

### ► MALE

15% males are affected by UI over age of 60

## IMPROVED SEXUAL PERFORMANCE

Erectile dysfunction, or ED, a significant and common medical problem, is the inability to achieve or sustain an erection suitable for sexual intercourse.

35% of men aged 40-70 are suffered from ED  
5% -10% of men below the age of 40 are suffered from ED

The BellaX is one of the most effective ways to combat ED by using electromagnetic pulses to stimulate the musculature of pelvic floor. These pulses help restore neuromuscular control, which can help prevent incontinence but also work as an exercise to reverse ED.

### BEFORE

Pelvic floor muscles insufficiently support pelvic organs and affect bladder control.

### PROCEDURE

BellaX effectively stimulates pelvic floor muscles with thousands of contractions per session.

### AFTER

Pelvic floor muscles sufficiently support pelvic organs and better bladder control

## SPECIFICATIONS

| Model       | BellaX              | BellaX Pro           |
|-------------|---------------------|----------------------|
| Screen Size | 15"                 | 15"                  |
| Energy      | 3 Levels adjustable | 1% - 100% adjustable |
| Voltage     | 110V - 220V         | 110V - 220V          |
